FRIDAY, DEC. 1, 1905.

What the country needs just now is a
few more cities. There are not half
enough to go around among the aspiring
candidates for Mayor.

Weymouth is the latest town to aspire
for city ahs and expenses. At a town
meeting held last week it was voted to
apply to the Legislature for a city charter.

The new board of trustees of the New
York Mutual Life Insurance have re-
duced the salary of the president from
\$15,000 a year to \$7,500. Power man
will be get his winter's coat.

Mark Twain, the author, yesterday
in celebration of his seventieth
birthday, gave the Mark Twain and the
turkey family, but a short-lived turkey is
better than a seven-year-old one. No refer-
rence on Mark for living.

The automobile is not only a car
of today but evidently many people think
it will be used in the future. At the
great Olympia exhibition and sale in
England last week, manufacturers took
orders for \$3,000,000 worth.

It is estimated by government engineers
that a 11-foot ditch which will accom-
modate lake and river steamers can be dug
from Chicago to St. Louis for \$100,000,000.
By all means let's have the ditch. \$30,
000,000 isn't much to talk about when the
government foots the bills.

Whether it shall be decided that the
student at the Naval Academy at Annapolis
died from other causes or from the pun-
ishing he got on a 21-round fight with a
fellow student there shall stand this fact
that the "code of honor" should have
been settled in some other way than it
was.

Oklahoma judges must have a law esti-
mate of government land or be in legal
trouble with land grabbers. Only a short while
ago one of these judges imprisoned a
party of six hours and fined him \$100 for
a grab of \$12,000 acres. This rates the
tre of Secretary Hitchcock and a more
thorough investigation is in order.

It will not be a question for the next
500 years "is there any coal?" for the
reason that immense coal fields have been
discovered in the Philippines and Alaska
and we have hardly begun on the anthrac-
ite east of the Alleghenies or the litho-
nous west. It will simply be a question
"in whose hands is the coal and what is
the price?"

We have bought the Panama route for
a canal, we have done wonders in improving
the sanitary condition of the fever-
stricken district, and now before we have
even decided on which shall be constructed,
a sea level or a lock canal, Mexico comes to the front and proposes
to complete a canal by a different route at
a very early day.

The horrible railroad accident near
Lincoln in this State on Monday, brings to
the front reminders of too frequent occur-
rences of this kind. In four years 1500 passengers and over 12,000 railroad
employees have lost their lives by railroad
accidents. It would seem that we have
done work on the maximum line and it
is now up to railroad officials to reduce the
casualties to the minimum and if necessary
cut down the rapid transit business.

When in the Legislature we had Dr.
Tuttle of Hyde Park as a near neighbor.
Dr. Tuttle was a good neighbor and friend
and sound on most questions, and we
ought to congratulate him and Hyde Park
on his reelection, but we think we can
see a bill to reclaim Neponset valley for a
park reservation. That might be pretty
to look at from an aesthetic point of view,
but we are in the Metropolitan district
and are paying all we can afford to in that
time just at present. So slow, brother,
on the Neponset river reservation.

Weymouth stores are not the only ones on earth, but they are the ones you can be found in for hardware, shopping and are now full of surprises. Find the ads in this paper and make the rounds of Weymouth stores and you will make no mistake.

The advisability of holding marriage ceremonies among hardened criminals at the State prison has been brought into question this week. Quiet, modest-looking young women are not always what is indicated on the surface. They can carry guns, saxes, files and other implements, and another pair of ill-fitting leather boots to kill, rob and assault.

For more than four hundred years navigators, explorers and scientists have been seeking a northwest passage, an open polar sea. The passage has not been made, the day is far away. A weary explorer, Aranha, has gone from the Atlantic to the Pacific ocean by way of a passage of his own discovery. Amundson was two and a half years in making his trip, and while the route may never be used to any extent as a means of ocean travel, much has been added to the world's general knowledge in the scientific and geographical way. The trip was made in a small fishing ship and the eight men who comprised the crew live to tell the story.

Dom. John W. Weeks, member of Congress for the 12th Mass. Congressional district, has an eye not only for the interests of his own district but for the whole New England states, and has got in an early bill for a new Custom house in Boston and there is no reason why it should not come and the old and sufficient reason why it should. The old castle at the foot of State street has long outlived its usefulness and the commercial interests of New England demand something which comes nearer meeting the present condition of commerce as well as better accommodation, for and preservation, of valuable documents.

The leading characters in the celebrated "case-out-side" are now serving a sentence to the full extent of the law, and as the judge who sentenced them remarked, "The pity is that the law is not more severe." The long drawn out case of Mar. Rogers has come to a close, and while the trial act is said to contemplate the act which lead to it had no mitigating circumstances. The repeated assaults upon unprotected women and other crimes call for more law and order, less prudence of "Let him sit without cast the first stone." If thy brother be overtaken with a fault you that are spiritually minded restore such in me, less carrying of bouquets and dainties to criminals, less efforts on the part of lawyers to get new trial after a party has again and again been convicted of villainous crimes, and more safeguards to life and property.

TUFTS LIBRARY.

"Modern American Sculpture" is the subject of the collection of photographs to be exhibited in the reading room from Dec. 20 to Jan. 5. Sixty-eight sculptures are represented by 262 specimens of their art, including statues, reliefs, busts, statuettes and specimens of decorative and municipal work, executed within the last twenty years.

Old Colony Club.

Mr. Vesper George spoke on "Household Art" at the Old Colony club on Thursday. The lecture was interesting and the illustrations most artistic. The next meeting of the club will be a concert under the direction of Mr. Linscomb, and the club act is said to contemplate the act which lead to it had no mitigating circumstances.

The repeated assaults upon unprotected women and other crimes call for more law and order, less prudence of "Let him sit without cast the first stone."

The subject of the Tuesday evening meeting next week will be, "What elements in Christ's life and character attract you most?"

The next social of the Ladies' Social union will be held next Wednesday evening. Supper will be served at 6:30, to be followed by a concert by the "Albion-McCarterbury" orchestra. This orchestra has furnished excellent entertainments at so many places in years past and its return to public life will be received with pleasure by those who have heard it before.

The regular meeting of the Young Men's Club was held Monday evening.

STORE REMODELED AND REFITTED.

Bates & Humphrey Rededicate Their

Shop and Entertain the Firemen.

It is hardly three weeks since the fire department of East Weymouth was called out to extinguish a blaze discovered in the store of Bates & Humphrey, Weymouth Center.

Happening at the time of night it did, the fire had made a wider-scarred progress than was discovered, and the building was full of smoke as the fire had spread from the basement to the upper story. The firemen did good work and the exterior of the building was saved, but the inside was a mass of charred and smoked ruins.

The work of repairing under Contractor Charles Simmons, has been rapid, and last Saturday the occupants returned for business. In one of the neatest, best arranged and best equipped establishments in town. The main store, with its metallic ceiling and well-lighted walls, is a thing of beauty and was admired by all comers.

Appreciating the work of the fire department, Messrs. Bates & Humphrey gave them a reception and collation in the evening. At a little after 8 o'clock a procession was formed at the Engine house and headed by Capt. Edward Fahey, with Capt. J. H. Higgin both the head of the Hose Company and Capt. Jasper A. Lewis leading the Hook and Ladder Company proceeded to the store where the former were royally entertained. Capt. T. Weymouth, welcomed the men, thanked them heartily for the work they had done and invited them to the hospitability of the house. Refreshments and the evening were well mingled and all enjoyed the occasion. Capt. Lewis responded to the kind remarks of Capt. Humphrey and assured him that the members of the department were only too glad to respond when called, especially when encouraged by such recognition as they were then receiving. Capt. Fahey responded to a call and gave reminiscences of the work of the past and suggestions of value and interest. Capt. Hunt of the Hose Company was never at a loss for something to say when called on, and this occasion was no exception.

Employees of the Arlington mills, Lawrence, are happy at the outlook for 1906. They get an advance of ten per cent to goes to start with.

Whatever else may be doing, and whatever else the result may be, District Attorney Moran of Suffolk County is laying out a good winter's work for the Legislature.

The assessors of Lynn are on the war path with sharpened pencils. They propose to raise the valuation of the "slum city" by unearthing \$1,000,000 of personal property.

According to Judge Tashish of Middlesex County, the owner of an automobile is guilty of violating law's governing the use of such machines only when he himself is driving or has hold of the "handie bars."

The first of the month the government began its annual distribution of seeds and plants, and the New Englander who wants to do good parts of the country, and with one-half of them may never do a place in the sun, many of the others will fall upon good ground and bring forth some sixty and some an hundred fold."

Some mathematician who has been watching the swelling tide of Niagara, has figured out that in 3000 years the water will have worn away the river bed to Lake Erie and that lake will be run dry save a stream which may course along its last bed. Those who have never seen the falls and lake had better take a few days off during the coming summer and visit the great wonder.

The resignation of Hon. Asa P. French, as District Attorney to take an appointment in the United States Court, leaves a position open which is being much sought after by aspiring lawyers. Among those who are in the front rank for the position by virtue of past experience and thorough knowledge of the requirements of the office, John W. McLean of Quincy is favorable mentioned.

While we are in the midst of Christmas festivities and we call to mind the stories of two thousand years ago when the shepherds looked their flock by night, the Christ child lay in the manger as Bethlehem and angels sang "Glory on Earth Good Will to Men," let us not forget that to-day is the anniversary of another event of which we cannot say too much or think upon too often. In the midst of our comfort and happy surroundings let us not forget the little band of Pilgrims to whom we are indebted for so much. No kind friends welcome them to a home-coming; no cheerful fires blazed on a hearthstone; but—

"The breaking waves dashed high
On a stern and rock-bound coast,
And the winds rent a stormy sky
Their giant hands to toss."

And the heavy night made dark
By the cold of winter's breath,
When a band of exiles snored their bark
On the wild New England shore.

Not as the conqueror comes;

"They, the true-hearted, came;
With the roll of the stirring drum,
And the trumpet that shuns of fame.

Not as the dying come;

"They shook the depths of the forest gloom
With their hymns of lofty cheer.

Ambit the storm heard and the sea;

And the sounding sides of the dim woods

To the antem of the frost;

To the antem of the frost;

From his nest by the white wave's

foam;

And the roosting pigeons of the forest roosted,

At their welcome home.

They were men with hairy hair;

Amidst that pilgrim train;

Why had they come to where there

Away from their childhood's land?

There was woman's fearless eye,

Lit by her steep love's truth;

There and the fiery heart,

And the fiery heart;

There and the fiery heart;

And the fiery heart;

There and the fiery heart;

HAYWARD, Manager.

ENTERED AT THE POST OFFICE AT WEYMOUTH
MASS., AS SECOND-CLASS MATTER.

FRIDAY, DEC. 20, 1905.

Brush up your pens, for you will need them next year and the year begins on Monday.

It is not too late to do some absent friend a kindness and give them a Happy New Year by sending them a year's subscription to the Gazette.

We take this occasion to wish all our friends and patrons a Happy New Year and to announce that we hope to make the Gazette more valuable in the future than it has ever been.

The holiday trading season is nearly, or quite, at an end and it has been a season of more than usual activity with all of our merchants. Good stocks of wares of all kinds were carried, and they have been well reduced.

Randolph is happy last week the governor with his golden-brown staff visited that town, an event, according to the Register, which has occurred but once before in the history of the town, and was incorporated many, many years ago.

The Peace conference at Portsmouth settled the long-drawn-out contest between Russia and Japan, and it did not give peace to Russia, but the commercial wars are today more menacing to the welfare of the empire than any foreign war could be.

Congress is having a two weeks' vacation, but the members will hardly decide what to do with the new bills, and the time to introduce new bills, and the options of the two houses were presented during the three weeks. Congress was in session, and they will last until after March without any additions to our made.

A man in Hyde Park has made himself so unpopular that he is removed from a petition in circulation asking him to leave town. We heard a number of years ago of a similar petition being circulated in a town in Illinois and the party cut the heading off, put on a new heading asking that he be appointed postmaster of the town, sent it to Washington and got the appointment. In this instance, however, Mr. Steddy may have no fear, as history will not repeat itself in this case.

The most universal holiday of the year for all the world has come and gone and the prophecy of him who said "And if I be lifted up will draw all men unto me" was never more nearly being fulfilled than it was during the Christmas season. It was a season of almost universal good will and kindly deeds. The poor and unfortunate were remembered and fed and clothed, churches vied with each other in service of song and praise, and humanity in every grade and condition was brought nearer together than ever before.

Farewell 1905. We part with you with regrets; you have been kind to us, you have given us 365 days of health and comfort, and the days of the year have been filled with nights of refreshing sleep; you have continued to us many kind old friends, and added to them many new ones; in fact, you have done as well or better than many of the years which went before you. You now leave us, but we will always speak well of the year of our Lord 1905, and welcome 1906 with open arms.

Monday Club.

The next meeting of the Monday club will be held in Masonic hall on the afternoon of New Years Day. The clergyman and teachers of the public schools have been invited to this meeting. The entertainment will be by Mr. Samuel Arthur King, who will give a Shakespearean recital. Mr. King is a graduate of the University of London and is a lecturer on the staff of Bryn Mawr and Wellesley colleges, and has given recitals in most of the important universities and colleges from Maine to California.

A social hour, with light refreshments, will follow the recital.

A Food to Work On

Work! Work! Work!

Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time.

The man of to-day needs something more than mere food; he needs a food that makes energy: a food to work on.

Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means **Uneeda Biscuit**—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour.

That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of **Uneeda Biscuit**, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. Truly the food to work on.

Whoever you are—whatever you are—wherever you work—**Uneeda Biscuit**.

Newton Perkins.

The honored Mr. and Mrs. Fred L. Perkins, the Burlington street, Lane, weds this evening. Christmas day, when Miss Mabel L. Perkins was married to Mr. Clarence H. Newton, a popular young man of North Weymouth. Rev. George H. Johnson, pastor of the First Congregational church, led the nuptial knot.

The parson was appropriately dressed with evergreen and holly and presented a real Christmas appearance. The bride was charmingly gowned in white muslin, while the groom wore the conventional black. They were married in the presence of only the nearest relatives of the bride and groom.

Mr. and Mrs. Newton left for a short wedding trip, the bride being gowned in a charming travesty of dark red sateen and a large black plumed hat.

After their return, they will make their home in Burlington, Vt., the groom, who is the New Hampshire and Vermont representative of the American Casket Company, his headquarters.

Larry Hart.

A very quiet wedding took place at the parson's residence, Commercial street, Weymouth, Wednesday afternoon when Rev. John H. Holland married Mr. Charlie Hart, daughter of the late Michael Hart and Maria L. Hart of Weymouth, and a son of Leon Hartland and Linda Merlehan. The usual custom of exchanging presents by members of the class was done away with and the scholars brought presents which were sent to Rev. D. W. Waldron of Boston for distribution among the poor children of the city. A large collection of gifts were brought in. The pastor occupied a few minutes of the time by telling "The Christmas Story" in a way that could be understood by the young.

All who attended the vesper service held a few weeks ago will be interested to know that they will be in another similar service in the auditorium on Sunday afternoon at 3:30 o'clock. There will be music by the choir, quartet selections and a talk by the pastor.

Mills Purchase.

The home of Mr. and Mrs. Fred Parker on Station avenue, East Weymouth, was the scene of a quiet but pretty wedding ceremony last Friday evening. The contracting parties were Mr. and Mrs. Charles Parker. All men are invited to attend the meeting.

Old Colony Club.

The old Colony Club held its annual general meeting on Friday evening in Pease's open house, South Weymouth.

Mr. Hartland who attended pronounced it one of the most successful affairs of the kind ever held by the club.

As the guests arrived they were shown seats by a corps of ushers in charge of Mrs. Walter Field. The hall was beautifully decorated with evergreen and holly. Evergreen trees were used profusely on the stage and from the chandelier in the center of the hall were long strings of evergreen, suspending the large Christmas bells. The decorations were in charge of Mrs. Louis A. Cook, Jr. During the singing of the guests, Cuff's orchestra of Braintree furnished music.

After a brief address of welcome by Mr. Fred Reed, the club president, an excellent musical was given under the direction of Arthur F. Taschner, collector of soprano solos by Mrs. Mills, collector readings by Mrs. Mills, and a talk by Mr. C. Colchester. The program was much enjoyed and several novelties were received by the artists.

Refreshments were served and at the close of the reception the newly-wedded couple were conveyed to a neat hotel which had been established on Grand street.

Marine Band Ball.

A success, modestly, financially and socially, was the efforts of the Marine band of East Weymouth at its first annual ball which was held in old Folger's open house, East Weymouth, last Friday evening.

The affair had been well advertised and a large number of tickets had been sold. As a result, there was a large audience present when Sig. Sajko came onto the stage to direct the band which was seated there, presenting a very fine appearance with their new uniforms and shining brass instruments.

The program rendered consisted of classical, patriotic and popular music, being led by Miss Helen Reed and Mr. Taylor of Boston. Phil's orchestra furnished music. A number of guests who did not care to dance remained in the balcony where the effect was exceedingly beautiful.

Extra cars were provided to carry home those living out of the village.
